

Writing Numbers and Measures

Ryan Woodward, Gareth Marriot, Joel Cohen

June 21st, 2020

Why is writing numbers and measures well important?

As Engineering and Computer-Science students (primarily), we are likely to have to write a lot of technical documents in our careers. A large part of writing technical documents includes the reporting of numbers and measures. So, if we want to look professional and properly inform our readers, we must make sure we write these numbers clearly.

What we cover

- How Numbers and Measures Influence Us
- Expressing Numbers Unambiguously
- Rules
- Measured or Calculated Numbers
- Numbers and Measures
- Approximations
- Large Approximations
- Mathematical Operations

What you should take away

In this presentation, we hope you learn a few basic rules for how to write numbers clearly. There aren't many but we hope you take notes to better absorb the information we are giving.

Thank you

We'd like to thank our audience for their attention and for giving us the opportunity to speak on this subject. We hope this information helps you in your future endeavours.
